FORESTRY DEPARTMENT

To the Chairman
Board of Selectmen
Boscawen, N. H.

Dear Sir:—

In accordance with the terms of an agreement executed between the town of Boscawen and the New Hampshire Forestry Commission, we are submitting a report of the White Pine Blister Rust Control work performed in your town during 1926.

Last March at their annual meeting 81 towns and cities appropriated \$33,375 for Blister Rust Control, in cooperation with the State Forestry Department. Such action clearly indicates that there is a strong conviction throughout the State that Blister Rust is serious and white pine worth protecting.

The initial examination of the land area of your town was completed during the past season. Currant and gooseberry bushes were left in certain sections of areas worked this season because of their being sufficiently far removed from white pine to prevent danger to that tree. All white pine stands located in areas where bushes were left were adequately protected by the removal of currant and gooseberry bushes among the pine and for a sufficient distance around it. While this season's work completes the initial examination of the land area, it is well to bear in mind that a second examination should be made at some future time in order that currant or gooseberry seedlings too small to be discerned at the time of first working, as well as those which developed from seed then in the ground, should be located and destroyed. It may be of interest to you to know that a number of towns which completed the first examinations several years ago are already carrying on re-eradication.

There is attached to this letter a financial report indicating the expenditures made in your town during 1926 in the eradication of currant and gooseberry bushes. Should there be any information of special interest to you which is not contained in this report, we shall be pleased to further advise you upon request.

We would also suggest that this report be read at town meeting and such sections as seem advisable included in the annual report of the town.

Respectfully yours,

JOHN H. FOSTER,
State Forester.

LIBRARY REPORT

The work of the town library has been very satisfactory during the past year, a number of new ideas having been introduced by the librarian.

On May 7 the first meeting of librarians and trustees ever held in town took place at the library with over thirty visitors from neighboring towns and cities being present, the significant point of this, to the town, being that our library has reached a point where it is worthy of taking its place among its larger neighbors.

The establishment of a summer reading club with fifteen children registered was an innovation and proved of interest, a certificate being given at the end of the season, eleven of the fifteen children completing the work.

At the Grange Fair, held in town, a good-sized booth was attractively arranged showing the work of the library as well as the newest books, pictures, etc. Much interest was displayed in this booth.

Book Week was observed again this year. A little play, "Friends in Bookland" was given by eighteen children in costume and a short talk by Miss Frances Hobart, Secretary of the Library Commission.

During the year we have loaned 4,616 books against 3,687 last year, an increase of 929 which we consider very good especially as five per cent of this was among children. There have been added to the library 281 books besides pictures, post cards and photographs.

Miss Martha Knowles, a former resident, left her library to the town and the books are now on the stacks.

Other gifts we wish to acknowledge are a set of "Bound Harpers" from Mr. John C. Thorne of Concord; also a book "Prohibition at its Worst" from the local W. C. T. U.

The interest from the Harry K. White fund will be available to help on book purchases for the coming year and it is hoped we may be able to make a better increase in number of volumes added to the library.

Through the courtesy of Mr. Frank L. Gerrish the entire library interior has been freshly painted and varnished at absolutely no expense to the town.

During the year both Mrs. Emery and Mrs. Wight attended the Library Summer School at Durham and received their certificates.

We sincerely hope that all citizens of the town, both at Penacook and Boscawen end will make every effort to avail themselves of the many and excellent books in the library.

RALPH W. PILLSBURY,
WILLIS G. BUXTON,
VILLA HALL WIGHT.
